Welcome

Sunday, 01 January 2012

Hello and welcome to 3dArtSpace.com. I'm Meats Meier and this is my portfolio of some of the projects that I have created. I'm an independent artist working in both the 2nd and 3rd dimension using Maya and Zbrush for modeling and animation. I use programs like Photoshop and After Effects to composite the images into [Animations](#) and high resolution [Artwork](#). I also enjoy compositing 3d elements into live action DV and HD footage and then matching the colors and movement for seamless integration.

I take a lot of pictures, some of which you can see in the [Photo](#) section. My biography, demo Reel, video interviews, and book appearances can be found in the [About Meats](#) section.

Be sure to stop in and sign my [Guestbook](#)!

Mudos Digitales - Spain

I spoke at the **Mundos Digitales** festival in Spain. It was a great time despite the airline losing my luggage on the way there (and not returning it until two weeks after I returned).

Tuesday, 01 June 2010

I worked with the team at NY's [Breathe Editing](#) on shots for the upcoming **Roger Waters - The WALL** concert tour. The show should be extremely mind blowing.

Banksy - Through My Lens

Monday, 24 May 2010

Banksy dropped off some art for us after his film premiered at the Los Angeles Theatre a few weeks ago. His statement is dead on for this area.
